- Managed the entire product line life cycle from strategic planning to tactical activities.
- Collaborated with designers to build our UI/UX for iOS, Android, and the Web.
- Managed 28 full-time employees in Poland, Sweden, India, and England.

Founder & CEO at Airify

September 2015 - September 2016

Airify focused on solutions to mitigate indoor air pollution and provide consumer options.

Indoor air quality has become an important health and safety concern. Unfortunately, despite the very real impacts air pollution has on our everyday lives, it often goes unnoticed because it is largely invisible.

- Designed the user interface and user experience.
- The prototype analyzed CO, CO2, NO2, VOCs, PM2.5, PM10, temperature and humidity.
- Extensive research about air quality, human health, environment, hardware
- manufacturing, prototyping, regulations, certifications, and sensors.
- Hardware prototype: <https://vimeo.com/285249800>
- Frontend development (HTML, CSS, JS)

Founder & CEO at Roseville

October 2008 - August 2011

Founded clothing brand to compete with fashion lines for men and women in the Swedish market.

- Worked with producers in Pakistan, Bangladesh, China, and Turkey to iterate upcoming collections, manufacture and ship products.
- Collaborated with designers in Sweden on embroideries and models of our polo shirts.
- Established specifications for clothing factories for samples to review factories to partner with.

- Iterated prototypes with several factories (fabrics, embroidery, colors, and sizes)

Founder & CEO at Scootertuning

August 2005 - November 2006

Scootertuning was my first e-commerce company, we imported scooter parts from Germany and distributed the products in Sweden.

- Launched and managed e-commerce shop.
- The company was acquired for €10k.
- Negotiated key manufacturing contract product for custom scooter model parts in Sweden.
